BODY FOUND IN FIRE RUINS.

While clearing away the debris in the ceilar of the building at No. 88 Clinton street, which was burned on Monday, workmen to-day found the body of Nikia Wallenbeck, forty years old. He lived in the tenement, and it is supposed that while trying to escape the flames he perished.

# COURT BUILDING BY THE SUBWAY

Public Service Engineer Says Foundations Are Not Affected.

The Public Service Commission to day received a report from Chief Engineer Seaman, showing that no settlement has taken place in the walls of the Criminal Courts Building by reason of the subway construction. This matter was called to the attention of the Commission on March 23 by John Cloughen, Commissioner of Public Works.

In his report, Mr. Seaman says: "He to the present time, excavations made by the Degnon Contracting Company have not been carried to a depth lower than the foundation of the Criminal Courts Building. In view of the general condition of the building and reports from time to time in the press, particular precaution has been taken looking to a complete record in regard to this building. The contractor is cognizant of this structure, and will use special care."

The Commission approved plans of the Chief Engineer for glass inclosures for the elevator shafts at the One Hundred and Eighty-first street stations of the West Side Subway. The Commission directed that they be built. The object of these glass inclosures is to governt the play of powerful draughts, which have caused serious embarrassment to women. "In to the present time, excavations
